OUR PROJECT

Although we love receiving presents, we would rather appreciate you supporting our project with a small Donation:

After an initiative lecture by the Ahauser Verein women-for-women(frauen-für-frauen eV) during one of our club evenings and subsequent discussions and the perceptible in various personal conversations with young women in the region Ahaus endangerment by so-called KO drops we have therefore inspired the soroptimistic goals for our first social project. Here, together with the association frauen-für-frauen eV, we are planning events at local schools to prevent the involuntary intake of knockout drops.
